Curcumin: Support the Body's Natural Anti-inflammation Mechanisms

Restore provides:

Curcumin is a compound from turmeric, a spice often used in Indian cuisine

Why you need it:

Curcumin acts on a variety of cellular pathways and can help reduce inflammation resulting from physical activity and exertion*

*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Did You Know?

Curcumin gives turmeric, the main ingredient in curry, its bright yellow color

Natural Antioxidant Protection

Restore provides:

Saberry™† extract:

A patent-pending extract from the emblica (or Amla) fruit

Elderberry extract:

A powerful fruit-derived antioxidant

Why you need it:

Antioxidants help protect against negative effects of free radicals generated during exercise

†Saberry™ is a trademark of Sabinsa Corp.

Support Immune Function

Restore provides:

- Beta-carotene, which supports many of the body's systems

Why you need it:

- Overtraining can lead to compromised immune function
- Every day we are exposed to environmental toxins that increase free radical production and cause inflammation

Restore: Great Option for Everyone

- Combats exercise-induced inflammation*
- Supports immune function*
- Antioxidant protection*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
